Software Development Engineer Intern
SUMMER INTERNSHIP

Presentation of the Startup

SQOIN is a blockchain & cryptocurrency tech startup.

We work on Blockchain based business cases as well as software development .

Our product consists of a crypto payment gateway that helps companies make online token exchanges with a fast and easy software package tailored for African needs and mobile payment features.

We have the ambition to be one of the best blockchain enablers for businesses in Africa.

We are now focusing on social impact value transfer systems and decentralised finance use cases.

Job Description

We are seeking an intern to work on Security check & enhancement for DeFi applications
