HIRING

Business Developer – INTERNSHIP

Startup Presentation

Accelerated in Flat6Labs Tunis, Athena-IO is a fast-growing startup working on reinventing learning on factory floors. Founded in 2018, we provide a platform to hardware manufacturers to digitize their product manuals, making them immersive and intelligent.

Job Description

We are seeking an intern to work on sourcing, approaching and handling prospect clients with founders. The candidate will scout the market for leads and attempt to convert them to business opportunities while handling client feedback.

Please write in the subject field "Business Developer Internship".
