Job Description - Community Manager (Internship)

Chantier is looking for an Android Developer for an internship. We are looking to hire a talented intern who will participate in creating and maintaining mobile apps to use by our clients and teams and share our passion for making the lives of people easier.

What you will be doing:

- Create content, including editorial posts for use across multiple channels, polls and contests to engage the community, build loyal fans, spread positive sentiment, and incentivize players to login every day
- Respond to player inquiries across all channels
- Monitor, report, and drive key community engagement performance metrics (e.g., reach, engagement, player sentiment)
- Build excitement and relationships on behalf of our games by contributing to community-engagement programs and monitoring community sites and forums
- Manage community with an eye toward encouraging good community behavior and improving the overall tone of the community sites and forums
- Extend program beyond websites to build external relationships with community partners such as fan sites, influencers, players, teams and volunteers

What you need:

- Matching experience or interest in community management; students considered
- Empathy
- Proven ability on diverse social media platforms
- Passion for mobile games
- Excellent written and verbal communication skills
- Creative thinker with fresh ideas to activate our community
- Enthusiastic, positive, and team-oriented attitude
- Excellent interpersonal and organizational skills

What you will get :

- An opportunity to work with a startup with a fast-growing and mature product line
- A fun and casual work environment with flexible work hours
- An opportunity to get out of your comfort zone and apply technology for one of the most challenging fields
