3D Artist (Part-Time Internship)

Startup Presentation

Accelerated in Flat6Labs Tunis, Athena-IO is a fast-growing startup working on reinventing learning on factory floors. Founded in 2018, we provide a platform to hardware manufacturers to digitize their products manuals, making them immersive and intelligent.

Reasons to join

Join Onboard and work on a product made with cutting edge technologies. You'll have the opportunity to grow with a fast-scaling startup in the vibrant entrepreneurship scene of Tunis. Our culture is what sets us apart, Communication and the growth mindset are at the core of our values. We value our employees' comfort and work flexibility.

Job Description

Our platform enables its users to create intelligent and digitized 3D manuals, by importing into our software their 3D Models. Your mission relies on creating/modifying and optimizing 3D assets for a smoother viewing across the different platforms we support.

Skills & Qualifications

- Have expertise with at least 1 software out of these 3 (Solidworks, 3DS Max or similar, Catia)
- Team-Oriented DNA
- Passion for learning

Our culture is what sets us apart, Communication and the growth mindset are at the core of our values. We value our employees' comfort and work flexibility.

Job Description

Your mission relies mainly on text-mining the current textual product manuals, extract resumes, and generate a set of frequently asked Questions&Answers for a given manual inserted into our platform.

Skills & Qualifications

- Strong knowledge of Python
- Proven Experience with NLP toolkits
- Knowledge of Web API frameworks (Flask,...)
- Critical mindset
- Passion for learning
